

Date: 3 December 2021

IMPACT

More than 40 technology makers worked on Internet Jurisdiction: mapping of the Internet Datasphere using AI.

The Project:

Internet Jurisdiction - Leverage AI to crowdsource the mapping of the Datasphere

CERTIFICATE OF COMPLETION

THIS IS PRESENTED TO

Shivani Mayekar

| Junior ML Engineer

for the solution development, visualization, and modeling for the Omdena AI Challenge concerning the mapping of the Internet Datasphere using AI. In a period of two months, the project overlooked the collection, charting, modeling, and development of graph-based entities through a wide collection of tools and software.
